

Sketches and proposed plan

The NEXXUS Project

A new community space at St Andrew's Church

St. Andrew's Church has a vision and a calling from God: to build a new community space in order to continue our commitment to be a transforming presence for our community and town.

Our aim is to create greater accessibility throughout the week, provide urgent improvements to our existing facilities and extra meeting space for a wide number of groups.

We will provide a building that will be a legacy for the next generation, equipping the Church to fulfil our vision and calling.
